

DECENTRALIZED FUND

WELCOME TO BLOKSEED

A dynamic management company spearheading our decentralized fund's operations. At BlokSeed, we recognize the fundamental need for a secure and transparent decentralized platform, and that's why we seized the perfect moment to create this fund, considering the current market state and prevailing macroeconomic conditions.

OUR VISION

Our team is united by a powerful vision - to address the challenges within the decentralized space and revolutionize the future of finance. We bring diverse expertise in entrepreneurship, financial management, blockchain development, and trading, propelling BlokSeed's vision forward with cutting-edge solutions and innovative strategies.

THE MARKET OPPORTUNITY

In a world transformed by cryptocurrencies and blockchain technology, we witness the rise of groundbreaking assets like NFTs, smart contracts, and DeFi. The growing interest in decentralized finance has led to an increasing demand for secure and transparent opportunities, as traditional options lose appeal amidst low interest rates and economic uncertainties. This is where BlokSeed's decentralized fund steps in.

⌂ THE VALUE PROPOSITION ⌂

BlokSeed's decentralized fund offers a unique value proposition in this rapidly evolving market. Our approach addresses this confluence of factors, providing contributors with a secure and transparent option. To set ourselves apart from the rest, we've developed a distinctive tokenomics model that acknowledges the flaws of traditional ICOs and ensures a fairer distribution of benefits to our valued token holders. We firmly believe that replacing the conventional ICO model with this improved and transparent opportunity empowers our community for mutual growth and success.

➤ **TARGET AUDIENCE** ⬅

Our decentralized fund caters to individuals with varying levels of expertise - from those well-versed in cryptocurrency, blockchains, smart contracts, and decentralized finance, to those eager to explore this transformative domain. Whether you embrace a medium to long-term approach or prioritize steady performance and lower risk, our fund welcomes contributions of all sizes. Together, we aim to cultivate a vibrant community of like-minded individuals who share a common interest in the success and growth of our decentralized fund.

THE BLKS TOKEN

Introducing BLKS, our BEP20 token on the BNB Smart Chain, representing ownership in our decentralized fund. With a comprehensive token utility, BLKS enables contributors to participate in its remarkable growth. A robust referral program, enticing token farming opportunities, and a commitment to liquidity make BLKS a token like no other.

《》 **TOKEN FARMING** 《》

BLKS tokens can be farmed, providing contributors with a proportional share of the tokens added to the farm every month. The more BLKS tokens held, the greater the share of tokens that can be farmed. Our farming platform, powered by DDC33 smart contract technology, ensures a fair distribution of tokens from the decentralized fund to BLKS token holders.

Join us

Embrace the potential and possibilities of decentralized finance with BlokSeed. Join us on this revolutionary journey, where innovation meets opportunity. Be a part of the future of finance - together with BlokSeed's decentralized fund.
